**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 21, line 8, "the" before "said housing" has been deleted;

In claim 30, line 1, "36" has been changed to -26--.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose an apparatus for selectively energizing a high-voltage AC electrical load having, inter alia, switch means extended through and movable within a central opening of a switch housing and coupled to means for selecting a pre-programmed function of said apparatus for selectively energizing said load (claims 1, 11); or switch means having plurality of positions mounted a switch housing for selecting different pre-programmed functions which are predefined in control means mounted in said housing (claims 21 and 26). The remaining claims 2-10, 12-20, 22-25 and 27-30 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1 through 30.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bishel, Patent No. 6,356,038; Bishel et al., Patent No. 5,872,832; Thaler et al., Patent No. 5,160,831; Schornack, Patent No. 4,439,688.

None of the above patents discloses the switch means as recited.
